

## **Katie Alix**

### **Bio:**

I moved to Midlothian in 2006 after finishing my B.S. in biochemistry and chemistry from Virginia Tech. After finishing my M.S. in medicinal chemistry from VCU my husband and I stayed in the area. We started building in the Lavenham section of Collington about six years ago. My husband, kids and pups absolutely love this neighborhood and the feeling of community. Over the last five years I've been involved in the events committee and have served as Secretary on the Board for the last three years.

### **Reason(s) for serving on the Board:**

I would love an opportunity to continue being a voice for the community and will continue to strive to what's best for the community as a whole and not just a few individuals.
