

Dave Williams

Bio:

Past President of HOA for 5 years, been past Treasurer of HOA for 3 years, past Grounds Committee member HOA for 3 years. Presently Grounds Committee member at Collington for 2 years. Member of Board of Directors for Fort Belvoir Federal Credit Union for 10 years. Professional Engineer license (Texas and Virginia). Have a BS degree in Architectural Engineering at University of Texas 1976. Have a MS degree in Construction Program Management at George Washington University 1986. Graduate from Army Management Staff College 1988, Corp of Engineers—Senior Architectural Engineer, Facility Engineer at Fort Belvoir R&D Center. Manager of Engineering and Construction for the Bureau of Engraving and Printing Buildings in Washington DC. Director of Engineering and Construction for the Department of Homeland Security. Oversaw all new construction and renovation of existing facilities. Responsible for a operating budget exceeding \$1 million annually and c capital budget exceeding \$1 billion annually. I retired at the age of 66, I now enjoy my time with my wife, Barbara. Between the two of us, we have 5 children and 10 grandchildren.

Reason(s) for serving on the Board:

Now that the community is no longer in the control of the developer, there is much work to do to finish those projects that were left unfinished and much work to do to create the beautiful community we all deserve. I feel my skills and abilities will help to create and achieve these goals and to make this a community that we are proud of to call home. As I imagine, can you imagine, driving into the entrance of Collington and seeing beautiful flowers and landscaping. In addition, noticing the beautiful green lawn along Collington Drive as we drive to our homes. Not only will it provide beauty, but this will increase our property values for future resale.
