

## **Kwame Adom**

### **Bio:**

It is with humbled privilege that I partake in this committee elections to forward the progress of our Collington community. My name is Kwame Adom and I was born in the former Gold Coast, Ghana. I moved to the U.S (Connecticut) over two decades ago. I am currently serving in our worlds' finest Navy as Director of Personnel for Navy Recruiting District Richmond VA. My experience ranges from organizing community relation events to leading large groups of teams. I am a current student with Northeastern University's Leadership and Management degree program - with the understanding that execution of responsibilities is not confined to the abilities in studies but also the ability to comprehend my environment. I am happily married to my high school love of 18 years and we have two beautiful children. My hobbies include Friday night "family time", fitness and reading personal development books.

### **Reason (s) for serving on the Board:**

There are very few opportunities as gratifying as volunteer service, and even greater is the service to our community. I have lived in Collington for a year and I have enjoyed the family- oriented, secure, and all-inclusive atmosphere our community has. My election to the Board of Directors will bring to it a unique perspective in ensuring a continued advancement of the progress made thus far. My lifelong experience of financial management, coordinating volunteer projects, drafting and enforcing organizational polices, and leading large groups to achieving a common goal will be an asset to the board and our community. I will work with every member in our community to ensure an attractive conformity with our Declarations, By-Laws, and all applicable policies. Just as important, I will work with all of you to find ways to promote a mindset of participation, volunteerism, and a sense of belonging with our fellow neighbors. Our community is strong, and with a small adjustment to our individual contributions, our community will be the envy of many others. I look forward to growing here at Collington, and I look forward to playing my part in fostering the best community in Virginia.
